

**American Medical Association (“AMA”)
Maps License Agreement**

This Agreement shall be effective upon your acceptance by choosing the “Accept” button.

By accessing or using the Licensed Content, you agree to comply with and be bound by the terms and conditions of this Maps License Agreement (“Agreement”). You accept and agree to the terms of this Agreement on your own behalf or on behalf of your organization (if identified) as its authorized representative. Please read the Agreement carefully. To confirm your understanding and acceptance of the Agreement, click “Accept.” You (“Licensee”) may print or save a copy of this Agreement for your records.

(1) Licensed Content. “Licensed Content” means the following identified content, which is licensed, not sold, to Licensee:

***AMA SNOMED CT® to CPT® Maps** which provides associations between SNOMED CT® concepts and Current Procedural Terminology (CPT®) codes in the English language, as published by the AMA.

(2) Grant of Rights. Subject to the terms and conditions of this Agreement, the AMA grants to Licensee during the Term (as defined in Section 16) a limited, revocable, non-exclusive, non-sublicensable, non-transferable license to reproduce, display, and use the Licensed Content identified in Section 1 of this Agreement, for only the authorized uses of Licensed Content (as detailed in Section 3), in the Territory (as defined in Section 6).

(3) Authorized Uses. Licensee may use the Licensed Content solely in connection with supporting or facilitating prior authorization as defined by Centers for Medicare and Medicaid Services (“CMS”) in CMS-0057 (“Authorized Uses”). Licensee may use Licensed Content only as authorized under the terms and conditions of this Agreement, including the AI Addendum. Any use not authorized herein is prohibited, including by way of illustration and not by way of limitation, making copies of Licensed Content for resale and/or license, transferring copies of Licensed Content to any party not bound by this agreement, creating any modified or derivative work of Licensed Content, decompiling or reverse-engineering Licensed Content.

SNOMED CT® Affiliate License. Licensee acknowledges that Licensee’s use of SNOMED CT® is subject to the terms and conditions of the license with the U.S. National Library of Medicine (“NLM”) including Appendix 2 (“Affiliate License”) for use of SNOMED CT® and that SNOMED CT® as contained in AMA SNOMED CT® to CPT® Maps is licensed to Licensee by NLM and not by the AMA. Licensee acknowledges Section 12 does not apply to content that is not owned by the AMA. Licensee further agrees to comply with the provisions of the Affiliate License including the payment of fees, if any. Upon request, Licensee will provide AMA with documentation that Licensee entered into the Affiliate License.

(4) Requirement for License Agreement for Additional Uses. Notwithstanding the foregoing, the parties acknowledge a separate license agreement shall be required, and shall govern any proposed use, including any distribution of Licensed Content for any other purposes not expressly permitted under this Agreement, and the terms of such agreement, and not this

Agreement, will govern such use. Licensee agrees to provide at least ninety (90) days’ advance written notice to AMA to permit the parties to review any proposed additional uses of Licensed Content and to reach a separate agreement for such additional uses, including any proposed distribution of products that contain or rely on Licensed Content. AMA reserves the right to accept or reject licenses for Licensed Content based on AMA’s evaluation of the proposed use of the Licensed Content.

For the avoidance of doubt, this Agreement does not grant any rights to the CPT data file, which is available under a separate license. Licensee agrees to obtain any legally necessary licenses for use of such proprietary coding, including a separate license from the AMA for use of Current Procedural Terminology (CPT®) content, and/or a separate Affiliate License (as detailed in Section 3) for use of SNOMED CT® content. CPT content, as contained in AMA SNOMED CT® to CPT® Maps, is copyrighted by the AMA. SNOMED CT® content, as contained in AMA SNOMED CT® to CPT® Maps, is copyrighted by International Health Terminology Standards Development Organisation.

(5) No Derivative Works. Except as strictly necessary and as authorized in this Agreement, Licensee shall not alter or modify the Licensed Content. The parties acknowledge that to the extent that the Licensed Content is changed or if content or data is derived from Licensed Content, such modification, content, or data shall constitute a derivative work owned by the AMA.

(6) Territory. “Territory” means United States. State means any State of the United States, the District of Columbia, and any territory or possession of the United States.

(7) Reservation of Rights. Unless specifically identified in this Agreement, a subsidiary, affiliate, or other legal entity, however designated, related to Licensee that wishes to have access to Licensed Content must have its own separate license agreement. Only operating units of Licensee, by way of illustration and not limitation, departments, divisions and groups, that are not separate legal entities from Licensee may have access to Licensed Content for the Licensed Uses under this Agreement. Any use of Licensed Content by Licensee’s employees, agents, and/or contractors working on behalf of Licensee (including in the case of an individual who is the Licensee, those individuals authorized by the Licensee) shall be subject to the terms and conditions of this Agreement and Licensee agrees to be responsible for any non-compliance of the Agreement by Licensee’s employees, agents, and/or contractors. AMA reserves all rights not expressly granted to Licensee under this Agreement. This license specifically excludes (a) distribution of Licensed Content to third parties; (b) use of Licensed Content outside the Territory; (c) broadcasting, displaying, or making available the Licensed Content in any unsecured environment or public computer-based information system, including the internet; and (d) creating derivative works of Licensed Content, including translations. Licensee does not acquire any title or proprietary interest in the Licensed Content by use of the Licensed Content under this Agreement. Licensed Content is copyrighted by the American Medical Association. AMA retains all ownership rights and interest, including copyright in the Licensed Content and rights in the AMA and CPT names, which are registered trademarks of the AMA. Use of other copyrighted works not licensed under this Agreement, including other copyrighted works owned by the AMA or works owned by third parties, are subject to separate terms and conditions and Licensee is responsible for securing the necessary

rights or licenses for use of other copyrighted works. AMA claims no copyright to government data that is in the public domain. Licensee's compliance with this provision and all applicable federal, or state or local laws, rules, and regulations shall be considered a material obligation under this Agreement.

(8) Delivery / Additional Royalties / Usage of Licensed Content. Acceptance of this Agreement is required before access or delivery of the Licensed Content is provided or completed.

(8.1) Copyright Notices and Disclaimers. Licensee shall not modify or otherwise obscure any copyright, trademark and other intellectual property rights notices which may appear on or in association with copies (whether print or electronic) of any Licensed Content.

(8.2) Security for Licensed Content. Licensee will maintain reasonable and appropriate physical, technical and administrative safeguards to provide a secure environment to ensure that Licensed Content is only accessible for authorized uses under this Agreement. Such controls shall include, without limitation, user registration technology and information access controls, security management processes and firewall technology.

(9) No Assignment or Transfer. Licensee may not assign or transfer this Agreement or any of the rights herein without the prior written approval of the AMA which shall not be unreasonably withheld. Any attempt to assign or transfer this Agreement or any of the rights, duties or obligations hereunder in violation of this provision shall be null and void.

(10) U.S. Government End Users. CPT is commercial technical data, which was developed exclusively at private expense by the American Medical Association (AMA), 330 North Wabash Avenue, Chicago, Illinois 60611. This Agreement does not grant the Federal government a direct license to CPT based on the license in FAR 52.227-14 (Data Rights - General) and DFARS 252.227-7015 (Technical Data - Commercial Items) or any other license provision. The AMA reserves all rights to approve any license for CPT with any Federal agency.

(11) Cooperation of the Parties. Except for the license expressly granted to Licensee in this Agreement, Licensee acknowledges that all right, title, and interest in and to the Licensed Content, as well as any modifications or updates to Licensed Content are owned by AMA. Licensee shall cooperate with the AMA and provide additional commercially reasonable information to AMA to facilitate updates to this Agreement, and to verify compliance with the terms of this Agreement. No more than once annually, the AMA or its representatives may audit books, records, and other documents as necessary to verify compliance with the terms of this Agreement. Licensee agrees not to take any action adverse to the AMA's copyright, trademark, and other intellectual property rights in Licensed Content. Licensee agrees to make all reasonable efforts to prevent any infringement of AMA's copyrights in Licensed Content. Licensee further agrees it will not engage in activities resulting in damage to the reputation of the Licensed Content or the AMA. The parties hereby agree to reasonably cooperate with each other in any claim or litigation against a third party for infringement of the copyrights and/or proprietary rights residing in the Licensed Content but without cost to the party not bringing the suit and the parties agree to execute such additional documents

that may be reasonably necessary to cooperate in the prosecution of such litigation. The AMA expressly reserves all available rights and remedies, in law or at equity.

(12) Representations. AMA represents that it has the authority to grant the rights herein and that the Licensed Content does not violate the copyright or trademark rights of any third party. No representation is made with respect to content that is not owned by the AMA. Licensee represents it has the legal authority to enter into this Agreement and that the information provided to the AMA is true, accurate, and complete.

(13) DISCLAIMER OF WARRANTIES. LICENSEE EXPRESSLY ACKNOWLEDGES AND AGREES THAT: (i) TO THE EXTENT PERMITTED BY APPLICABLE LAW, USE OF THE LICENSED CONTENT IS AT LICENSEE'S SOLE RISK; (ii) THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY AND EFFORT IS WITH LICENSEE; AND (iii) THE LICENSED CONTENT IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, AND WITHOUT ANY REPRESENTATION OR WARRANTY WHATSOEVER, INCLUDING THAT THE LICENSED CONTENT IS ACCESSIBLE OR UNINTERRUPTED. TO THE FULLEST EXTENT PERMITTED BY LAW, THE AMA DISCLAIMS RESPONSIBILITY AND ANY LIABILITY FOR (A) ANY ERRORS IN THE LICENSED CONTENT AND ANY CONSEQUENCES, DECISIONS, JUDGMENTS OR RESULTS ATTRIBUTABLE TO OR RELATED TO ANY USES, NON-USES OR INTERPRETATIONS OF INFORMATION OR DATA CONTAINED IN OR NOT CONTAINED IN THE LICENSED CONTENT; (B) ANY DAMAGE TO LICENSEE'S EQUIPMENT OR ANY OTHER INFORMATION OR FILE OR APPLICATION; (C) ANY INTERRUPTION OF ANY SERVICE OR APPLICATION; AND (D) ANY OTHER DAMAGE NO MATTER THE CAUSE. THE AMA DOES NOT DIRECTLY OR INDIRECTLY PRACTICE MEDICINE OR DISPENSE MEDICAL SERVICES. FEE SCHEDULES, RELATIVE VALUE UNITS, CONVERSION FACTORS AND/OR RELATED COMPONENTS ARE NOT ASSIGNED BY THE AMA, ARE NOT PART OF CPT, AND THE AMA IS NOT RECOMMENDING THEIR USE. THE LICENSED CONTENT DOES NOT REPLACE THE AMA'S *CURRENT PROCEDURAL TERMINOLOGY* BOOK OR OTHER APPROPRIATE CODING AUTHORITY. THE CODING INFORMATION CONTAINED IN THE LICENSED CONTENT SHOULD BE USED ONLY AS A GUIDE.

(14) Limitation of Liability. To the extent not prohibited by applicable law, in no event shall AMA be liable for any incidental, special, indirect or consequential damages whatsoever, including, without limitation, damages for loss of profits, loss of data or information, business interruption or any other commercial damages or losses, arising (a) out of the use or inability to use the Licensed Content; (b) from any interruption in availability of the Licensed Content; (c) from any loss of data and/or from any equipment failure; (d) from unauthorized access to or alteration of Licensee's transmissions or data; (e) out of the use of, reference to, or reliance on the Licensed Content; (f) out of any content, materials, accuracy of information, and/or quality of the Licensed Content; or (g) out of any other matter relating to the Licensed Content. In the event Licensee is dissatisfied with

or disputes this Agreement or the Licensed Content, Licensee's sole right and exclusive remedy is to terminate Licensee's use of the Licensed Content, even if that right or remedy is deemed to fail of its essential purpose, and to the maximum extent permitted by applicable law, Licensee's exclusive remedy and AMA's entire liability for any claim related to the subject matter of this Agreement, whether in contract, warranty, tort, or any other legal theory, shall be limited to the total amount Licensee paid to use the Licensed Content provided hereunder, upon which the liability is based. Licensee confirms the AMA has no other obligation, liability or responsibility to Licensee or any other party.

(15) Exclusions Permitted by Law. Some jurisdictions do not allow the exclusion of certain warranties or conditions, or the limitation or exclusion of liability for loss or damage caused by negligence, breach of contract or breach of implied terms, or incidental or consequential damages. Accordingly, only the above limitations which are lawful will apply in such jurisdictions.

(16) Term. The term of this Agreement shall begin on the Effective Date and shall continue for twelve (12) months unless terminated under Sections 16.1 or 16.2.

(16.1) Termination Without Breach. This Agreement and the license granted hereunder shall be terminated (a) at Licensee's option at any time by ceasing use of and destroying the Licensed Content; or (b) at AMA's option at any time by written notice, for convenience.

(16.2) Termination Upon Breach. The AMA may terminate this Agreement upon written notice due to a breach of any representation, warranty or covenant in this Agreement. A breach of this Agreement shall include but is not limited to: failure to provide the AMA true, accurate and complete information, and failure to comply with the terms of this Agreement. Licensee agrees that the AMA shall not be liable to Licensee or any third-party for any termination of this Agreement. Licensee agrees that the AMA will be awarded court costs and reasonable attorneys' fees if it prevails in any action or proceeding against Licensee due to Licensee's breach of this Agreement.

(16.3) Post-Termination Obligations. Upon termination of this Agreement for any reason, all rights granted hereunder shall terminate and Licensee may no longer access or use the Licensed Content. Licensee shall destroy Licensed Content after the Agreement is terminated (unless use of Licensed Content is authorized under a separate license agreement), and upon AMA's request, shall provide AMA with written certification of such destruction. Any rights or obligations of the parties in this Agreement which, by their nature, should survive termination of this Agreement, will survive such termination.

(17) Controlling Law. This Agreement will be governed by the internal laws of the State of Illinois without regard to choice of law principles and by the laws of the United States of America. The courts of the State of Illinois and/or the United States District Court for the Northern District of Illinois shall have exclusive jurisdiction over any action concerning the subject matter of this Agreement, and the parties agree to submit to the jurisdiction of the courts of the State of Illinois and the United States District Court for the Northern District of Illinois.

(18) Complete Agreement. This Agreement constitutes the entire agreement between AMA and Licensee relating to the use of the Licensed Content authorized under this Agreement and supersedes all prior or contemporaneous understandings and agreements, both written and oral, with respect to such subject matter. Notwithstanding the foregoing, this Agreement does not replace, modify, or terminate the terms and conditions of any other license agreements between the parties for other content or for other uses not expressly authorized herein.

(19) General Provisions. No amendment to or modification to this Agreement will be binding unless it is in writing and signed by authorized individuals of both parties. Nothing contained in this Agreement shall be deemed to constitute a joint venture, partnership or agency between parties. Licensee acknowledges that Licensee has read this Agreement, understands it, has the authority to enter into this Agreement, and agrees to be bound by its terms and conditions. The delay or failure to assert a right hereunder shall not constitute a waiver of that right or excuse a subsequent failure to perform under this Agreement. If for any reason a court of competent jurisdiction finds any provision, or portion thereof, to be unenforceable, the remainder of this Agreement shall continue in full force and effect.

(20) Notices. AMA may notify you with respect to this Agreement by sending an email message to the email address you provided. Licensee requests or inquiries to the AMA will be sent to <https://compliance.ama-assn.org/hc/en-us/requests/new> (i.e., AMA's Zendesk link), noting in the comments: To the attention of AMA Compliance.

Last revised: June 30, 2026

AI ADDENDUM

This AI Addendum expands on the existing terms of the Agreement to address Licensee's uses of Licensed Content in Artificial Intelligence applications to Train AI Models, generate Output, or for other AI Uses. This AI Addendum details authorized AI Uses for internal, non-commercial purposes, subject to the underlying Agreement and this AI Addendum. All rights not expressly granted to Licensee are reserved by AMA. All other terms and conditions of the Agreement remain unmodified and are in full force. To the extent there is a conflict between the terms in this AI Addendum and the other terms in the Agreement, the terms in this AI Addendum shall govern with respect to any AI Uses.

A. Definitions.

"AI Law" shall mean any federal, state, local, or international law, ordinance, or regulation relating to the development, use, deployment, and sale of Artificial Intelligence technology, including, but not limited to, the Colorado AI Act and the European Union Artificial Intelligence Act.

"AI Model" shall mean a program or service that uses Artificial Intelligence, including, but not limited to, computational, statistical, or machine-learning techniques, to produce Outputs from a given set of inputs or integrate predictive capabilities into any system or tool, including, but not limited to, Contracted Tools or Unrestricted GenAI Systems.

"AI Uses" shall mean Licensee's uses of Licensed Content in Artificial Intelligence, including, but not limited to, Training AI Models and generating Outputs.

"Artificial Intelligence" or "AI" shall mean a machine-based system designed to operate with varying levels of autonomy, that infers, from the input it receives, how to generate Outputs, for a given set of explicit or implicit human-defined objectives, that can influence real or virtual environments. Artificial Intelligence includes large language models (LLMs) which are designed to understand and generate human language; and systems that use machine- and human-based inputs to perceive real and virtual environments, abstract such perceptions into models through analysis in an automated manner, and use model inference to formulate options for information or action.

"Contracted Tool" shall mean a system or product separately licensed or procured by Licensee for internal, business purposes, often governed by a written contract or published terms and conditions.

"Enterprise-Grade" shall mean a system or product that securely stores Licensee's data in a closed environment segregated from the other users of the system or product with functionality used solely by the Licensee's employees that enables Licensee to turn on or off critical features, including the ability to prohibit the use of Licensee-provided prompts for Training purposes.

"Output" shall mean data, information, insights, recommendations, responses, reports, analytics, or the like that is generated, in whole or in part, using Licensed Content in connection with Artificial Intelligence, even though Licensed Content may not be visible or directly accessible. For the avoidance of doubt, the Output does not include the Licensed Content or any derivative works of the Licensed Content.

"Retrieval" shall mean access and reference of Licensed Content by an AI Model at the point of use, without incorporating Licensed Content into the AI Model's Training.

"Traditional Machine Learning" shall mean statistical models, rule-based systems, and non-generative predictive AI techniques that analyze but do not generate Output or other content resembling Licensed Content.

"Training" or "Train" shall mean using Licensed Content to teach, fine-tune, improve, or adapt an AI Model such that the Licensed Content becomes part of the AI Model's internal parameters or otherwise impacts the predictive capabilities of the AI Model.

"Unrestricted GenAI System" shall mean a public-facing AI application (e.g., chatbots, APIs) that is accessible without restriction or sold on open marketplaces or which use any input to Train AI Models that are used by third parties.

B. Permitted AI Uses. Licensee may use the Licensed Content for solely the following AI Uses:

1. **Licensed Content may be used for Traditional Machine Learning for internal uses.** Licensee may use Licensed Content for Traditional Machine Learning to develop predictive analytics, classifiers, structured natural language processing models, and decision-support algorithms for internal uses.
2. **Content may be used as prompts for Enterprise-Grade AI tools, components, or products.** Licensee may use Licensed Content as prompts in an AI tool, component, or product to generate Outputs if (a) the AI tool is Enterprise-Grade, (b) the Outputs are for internal, non-commercial use, and (c) the Enterprise-Grade AI tool does not use prompts or inputs to Train the underlying or any other AI Models.
3. **Licensed Content may be used for Retrieval for internal uses.** Licensee may use Licensed Content in Retrieval-based AI applications for internal reference and lookup purposes, provided that the Licensed Content (a) remains stored separately from the AI Model, and (b) is not used for Training.

C. Prohibited AI Uses (unless explicitly authorized by the AMA). Except for the Permitted AI Uses set forth in Section B, all AI Use of the Licensed Content is prohibited, including, but not limited to the following:

1. **No deposit to an Unrestricted GenAI System.** Subject to Section B(2) of this AI Addendum, Licensee may not deposit or copy Licensed Content to Train, as an input, or otherwise in connection with any Unrestricted GenAI System.
2. **No Training.** Licensee shall not use Licensed Content (a) to Train any AI Models, or otherwise improve upon Licensee's internal or Contracted Tools, (b) for Training purposes to develop, test, maintain, or service products, or (b) to generate Outputs for use by, to support, or otherwise in connection with third parties.
3. **No embedding.** Licensee shall not store or process Licensed Content in a way that enables memorization, regeneration, or reconstruction by an AI Model (e.g., allowing AI Models to generate systematic or substantial excerpts of the Licensed Content as Outputs).
4. **No distribution of Outputs.** Licensee shall not distribute, expose, monetize, or sublicense Outputs for use by any third party. For the avoidance of doubt, Outputs may be shared internally and such action shall not be construed as distribution.
5. **No High-Risk Use.** Licensee shall not use the Licensed Content in connection with Training any AI Model, generating

any Output, or otherwise with any Artificial Intelligence technology that is considered “prohibited” or “high risk” under AI Laws, including, but not limited to, for extrapolation, manipulation, deception, exploitation of vulnerabilities, social scoring, criminal risk assessments, expanding facial recognition databases, emotion recognition, biometrics, or making assessments or decisions impacting an individual's health, safety, education, employment, finances, or access to medical, legal, or governmental services.

D. INTENTIONALLY NOT USED

E. General Acknowledgements.

1. Licensee agrees that the AMA does not assume any responsibility or liability as a developer, deployer, or provider of an AI tool as a result of the rights granted by this Agreement.
2. AMA disclaims any and all responsibility and liability for Licensee's use of the Licensed Content in connection with AI technology or any Output.
3. Licensee represents that Licensee's AI Uses of the Licensed Content will not create for the AMA any liability for infringement of the intellectual property rights of a third party.
4. Licensee will indemnify and defend AMA from any Claims, including any related fees, costs, fines, and penalties, including reasonable attorney's fees, arising out of any AI Use or Output. No exclusions of, or limitations on, liability set forth in the Agreement shall apply to Licensee's foregoing indemnification obligations or other obligations in this AI Addendum.
5. Licensee agrees that a breach of this AI Addendum will be deemed a material breach of the Agreement, allowing the AMA to terminate the license immediately and seek injunctive relief.
6. Upon expiration or termination of the Agreement for any reason, Licensee shall cease all AI Uses of Licensed Content.
7. Any AI Uses, Outputs, and Licensee's compliance with this AI Addendum will be subject to audit in accordance with the Agreement.
